About Changsha

Changsha, a land of 11,800 square kilometers, has a population of 7.645 million. With an urban area of 1,910 square kilometers, Changsha governs 6 urban districts and 3 county-level cities. It has a reputation of a long history, renowned as one of the first national historical and cultural cities and is also the birthplace of Xiang River culture. Changsha is home to Yuelu Academy, Mawangdui Han Tombs, Four Sheet Bronze Ware, Bamboo Slip and other cultural heritages. With scenic beauty, Changsha appears distinctive features composed of Yuelu Mountain, Xiang River and Orange Islet, together with the construction of urban area. Embellished by beautiful landscape and a 54.8 % green coverage rate, Changsha is also honored as China Tourism City, China Garden City and China Forestry City. It is a meeting place of 3 high speed railways and serves as key transportation hub that connects 19 provincial cities of China, with a passenger throughput of 2.1 million of Changsha Huanghua Airport and a golden channel capacity of 2,000 tons of Xiang River. It now is bursting with commercial activities. Three strategic zones gather in Changsha—A Pilot Zone of Building a Resource-Conserving and Environmental Friendly Society, National Independent Capacity Demonstration Zone and Hunan Xiangjiang New District. It has 1 national new area, 5 national high tech zones and 9 development zones in provincial level, with awards as the Potential City of China, China Top 10 Innovation Cities, Sound Image City of China, 10 Most Happiness Cities of China and National Civil City.

In 2017, Changsha achieved GDP of 10535.51 billion RMB, which increased 9.0% compared with previous years; attracted fixed investment 7567.77 billion RMB, up 13.1% to the previous year; general avenue was 1403.29

billion RMB which grew 14%. The general economic strength and economic increasing rate are outstanding among all provincial cities.

In face with competitive development situation, the 13th Congress of Party Representatives of Changsha explicitly put forward the strategic goal of building Changsha a central city of China and to realize basically modernization. Three centers will be focused on the strategic goal: National Intelligent Manufacturing Center, National Innovation and Creativity Center and National Transportation and Logistic Center. Changsha will stand out in the national strategic landscape and urban-rural system, fully perform its role in leading the economy of cities group in middle stream of Yangtze River and contribute more to the development of Changsha-Zhuzhou-Xiangtan cities cluster development.

Changsha National High-Tech Industrial Development Zone

Changsha National High-Tech Industrial Development Zone was founded in 1988, and it became one of China's earliest national-level high-tech industry development Zones through the State Council's approval in 1991. Approved by the Ministry of Science & Technology in 2009, Changsha National High-Tech Zone was recognized as a national innovative technology pilot zone. In 2017 the whole High-Tech Zone achieved a total technological, industrial and commercial income of over 540 billion Yuan (~ 81 billion \$) .

The High-Tech Zone ' s comprehensive economic strength and economic aggregate has won the 13th place among the 168 national-level high-tech zones in China, the comprehensive innovation capacity has ranked at the 6th place among China's high-tech zones. Also the High-Tech Zone has been officially appraised as a national advanced High-Tech Zone successively for seven years. The High-Tech Zone now has more than 25,000 enterprises, of which nearly 200 are foreign-invested, 42 domestic and foreign listed companies. The pillar industries of Electronic Information, Advanced Manufacture, Bio-medicine, New Materials, New Energy & Environmental Protection Industry and Modern Services, etc. have been formed already; here are Zoomlion, Broad, Jiuzhitian, ZTE, Talkway, and many other well-known trademarks famed both at home and abroad. There are 18 Fortune 500 international corporations gathering in the Park: Hitachi, Schlumberger, Nokia, Motorola, etc. And the global largest "Tianhe-1" supercomputing center has been built near the zone.

Here are the base for the national-level software, for the new materials transformation and industrialization, for the advanced manufacturing technology industrial, for the high-tech products export, for the mobile EC demonstration, for the the national service outsourcing demonstration , for

the housing industrialization demonstration and for the Hunan photovoltaic industry, Hunan environmental protection industry demonstration park, etc.

To improve the export-oriented economic, Changsha High-Tech Zone initiated and supported the International Science & Technology Business Platform. The platform serves as a window to enhance various exchanges between Changsha and the world, especially the overseas enterprises and organizations which intend to invest in China. The objective organizations are the overseas government departments and agencies and the overseas chamber of commerce and industry, high tech associations and other science and technology business service organizations. Currently there are 25 associations already settled down in the platform, which come from Taiwan, Germany and Indian etc. Also the “Public Bonded Warehouse” are under construction, in order to realize the strategies of “bringing in” and “going out”.
